THE OAT WONDER

\$200 FOR THE BIGGEST YIELD.

Last year we offered \$200 for a suitable name for our new wonder, **James's Beauty**. It was unanimously named **James's Beauty**, and a regular business transaction. It will prove to the farmer growing it. Why, the biggest yield in 1905 was 300 bushels per acre. Such yields make the oat-growing profitable at ten cents a bushel. **James's Beauty** is surely the oat wonder of the oat-growing world. Our catalogue gives full particulars of this oat wonder, and then gives a long list of farmers planting same in 1905, who grew from 100 to 300 bushels per acre. The United States Department of Agriculture pronounced our oats, for heavy yields, the best among all the different kinds. That is everybody's verdict. One farmer writes: "It is 10 times ahead of our varieties as Lincoln, Wabash, Scotch Superior, etc." This oat is a sure cure for hard times, a sure mortgage lifter.

GRASS AND CLOVER MIXTURES FOR MEADOWS.
Luscious meadows, healthy pastures, large hay crops, are the farmer's delight. Everybody can have them, no matter how poor the soil, by sowing **Salzer's Extra Green Grass Mixture**. Our catalogue tells how, also about these wonderful fodder plants. Lemnole, Sand-Torch, Mammoth, Lathyrus, and hundreds of others. All wide-awake farmers want them.

HARLEY, CORN AND POTATOES.
This trio is indispensable to every farm. Our **Harley King** variety and our **Golden Triumph** corn will positively revolutionize your corn growing. Their big yields border on the incredible. Our potatoes, why, when you, the elite of the Rural New Yorker says **Salzer's Early Wisconsin** yielded him 140 bushels per acre. Potatoes, \$1.25 a barrel. Large stock of potatoes. We ship three train loads potatoes to Texas—see in January, one in February and one in March. Order early!

SPLENDID VEGETABLES.
We make a great specialty of the early vegetables, as if you want these for sale twenty days ahead of your neighbors and get fairly prices, ours are the goods to plant. 21 page Early and Vegetable Seeds, \$1.00 postpaid. Special Wholesale Market Gardeners' List, 10c. postpaid.

PLEASE CUT THE FOLLOWING OUT AND SEND IT

AN UNFORTUNATE GIFT.

A Present That Started a Sweetheart and Her Household.

A civil engineer who boards at the Capitol Street house has just returned from a surveying trip, says the Washington Star. Immediately opposite him at the table sits a young lady, with whom the man of lines and figures is infatuated. She greeted him as he came in at noon from his trip:

"Oh, I am so glad to see you. I know it must be horrid to have to sleep in all sorts of places, and such chilly nights, too. Now, come right in with me, and tell us all about it."

The young man, conscious of having had to sleep on the ground the night before, wanted to get to his room unobserved and change his clothing, but he was too late, so he concluded to go immediately to the dining room. There the conversation was renewed, and the civil engineer having reached the poetic stage of love's young dream, ejaculated most eloquently upon the beauties of nature, the sense of peace and rest experienced when lying upon the green carpet of earth under the blue canopy of heaven, and other touchingly pathetic and charming similes. Then he remembered that he had found an exceptionally pretty clump of moss, which he had brought home for the object of his adoration.

"While out in the woods I thought of my friends in the house," he said, "and have in my pocket a sample of nature's beauties, which I hope you will allow me to present to you."

Then, with a bow, he drew forth from his pocket the moss, and a small-sized snake that had crept in and curled up in the warm pocket. The reptile darted across the table, the young lady fainted, the other boarders jumped on the chairs, everybody screamed, while the reptile glided around, seeming to play hide and seek among the dishes. Finally one of the gentlemen present killed the snake with the carving knife, and after the landlady had bestowed a withering look upon the young man and told him that she was "in the habit of entertaining ladies and gentlemen only," and that "no gentleman would play such a joke," he was allowed to go and he will never return.

MORAN'S MIGRATORY HEART.

After Much Shifting About It Has Settled Down on the Right Side.

Frederick Moran is an inmate of the county infirmary, and since he has been there his heart has been shifting from one side to the other, and has finally wound up on the right side of his body, where it seems to have located a claim with intention to remain permanently, says the San Francisco Examiner. Moran lived in Chicago when this peculiar action of the heart began. It was a restless, shifting organ, moving from side to side in a manner most perplexing and confusing to physicians. Mr. Moran found himself having considerable trouble, but he did not imagine his heart was wandering around in this remarkable fashion. When he came to this coast he settled in Alameda. Here his heart began wandering from side to side, and this so disturbed Mr. Moran's internal arrangements that he became quite sick. He was sent to the county infirmary for treatment, and when he got there Resident Physician Clark made a thorough examination of his physical condition. Dr. Clark noted that his heart seemed to be a little out of plumb, and he watched the case closely. While Mr. Moran remained in the county infirmary his heart kept on its travels and finally located itself permanently upon the right side. During this time Moran suffered some, but Dr. Clark's treatment prevented any serious results. Moran became accustomed to the new order of things, and he is now to be discharged from the hospital and he will go back to work. It is unusual that the heart should shift from one side to the other without causing death. Dr. Clark says that he has only heard of three similar cases and that the shifting of the heart in Moran's case has been complete.

THE FIGHT IS ON.

An intense rivalry between the watermelon and tomato growers as to who can produce the earliest. Salzer's Earliest Watermelon ripened in 1895 in 52 days. That record is to be beaten and Salzer pays \$100 to the winner! Then on tomatoes the record on "50 days the Earliest Tomato" in 1895 was 58 days. That's to be beaten and \$50 paid. Salzer challenges the world to produce earlier melons, tomatoes, cabbage, radishes, peas or sweet corn than he offers. Get his mammoth catalogue. There is money in it.

If you will cut this out and send it with 12c. stamps to the John A. Salzer Seed Co., LaCrosse, Wis., you will get free their great catalogue and a package of the yellow watermelon sensation.

Beware of Ointments for Catarrh That Contain Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is tenfold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure, be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by druggists; price, 75c per bottle. Hall's Family Pills, 25c.

London Postoffice Cats.

It may not be generally known that a considerable sum of money for cat meat appears annually as an item in the postoffice estimates. This meat goes to the support of a whole colony of rats at St. Martin's-le-Grand. How they first came there no one seems to know, but the general impression is that their ancestors belonged to the private offices which were demolished when the present G. P. O. was built, and that they became "strays" about the ruins until the rising walls gradually shut them in, and thus provided them with a home. Animal's Friend.

ATCHISON GLOBULES.

Nobody seems to be true to anybody. Who was the fool that said that time is money?

Nearly all the women overdo the angel business.

Unless love makes you sick, it is not a good quality.

The dirtier a dog is, the more friendly he is to his master.

A man has a right to think lots of things which he had no right to say.

If a man behaves himself, people say he is cunning, and hides his meanness.

Every woman has a certain look with which she can squelch a man.

When a girl gives a reporter an item, it is usually a "joke" on some other girl.

Break the Tobacco Trust.

St. Louis, Mo., (Special).—Col. Wm. A. Kirchhoff, general western manager of the American Tobacco Co., has startled his numerous friends by stopping the use of tobacco. For years he had smoked twenty strong cigars daily, and a less quantity would leave him nervous and ill. The habit was undermining his health, and he tried to quit, but could not, until he took No-To-Bac, the medical miracle that has cured so many thousands of tobacco-users. Col. Kirchhoff's craving for tobacco has entirely gone, and he feels better than ever before. He is a great No-To-Bac enthusiast now. Over 300,000 tobacco-users have been cured by No-To-Bac, and the loss to tobacco manufacturers is easily over \$10,000,000 a year.

She Wished She Hadn't.

Two girl friends met on the street and stopped to shake hands. "So glad to see you, Grace," said the tall, blonde Alice. "Was just on my way to ask you, as my oldest friend, to be one of my bridesmaids." "Bridesmaid! How lovely! I did not know you were engaged," replied the fin-de-siecle Grace. "It's sudden, very sudden but he's awfully in love, and is just too lovely to live. Will you act?" "Act? Of course. I'll be charmed. But," moving forward and speaking in an undertone, "do come round the corner and tell me all about it. There comes that idiotic, irresponsible donkey, Jim Berton. He's grinning as though he meant to stop, and I don't care to be seen talking to him." "Jim Berton? He's the man I'm going to marry!"

No, Indeed!

"We can't carry you," said a Boston motorman, slowing up his car at the frantic gesticulation of an elderly woman. "This is a mail car." "Well," she answered, "can't a female ride on it?"

Men waste money on tobacco, women waste it on their sleeves.

The Best. Rest. Test.

There are two kinds of sarsaparilla: The best—and the rest. The trouble is they look alike. And when the rest dress like the best who's to tell them apart? Well, "the tree is known by its fruit." That's an old test and a safe one. And the taller the tree the deeper the root. That's another test. What's the root—the record of these sarsaparillas? The one with the deepest root is Ayer's. The one with the richest fruit; that, too, is Ayer's. Ayer's Sarsaparilla has a record of half a century of cures; a record of many medals and awards—culminating in the medal of the Chicago World's Fair, which, admitting Ayer's Sarsaparilla as the best—shut its doors against the rest. That was greater honor than the medal, to be the only Sarsaparilla admitted as an exhibit at the World's Fair. If you want to get the best sarsaparilla of your druggist, here's an infallible rule: Ask for the best and you'll get Ayer's. Ask for Ayer's and you'll get the best.
